

ENSIGN11 *edu*

Quick start guide

Before starting

Make sure you are equipped with a pc/laptop with  Windows 10 operating system.

1

Connect **ENSIGN11 *edu*** to your PC / laptop via both USB cables (make sure to connect the strongest cable)

Plug and Play Solution

2

Click the link supplied when purchased (by email) and download the trayapp:

ENSignPenWorkspace_x.x.xx.x.exe

3

Once downloaded, the app icon will be displayed on your desktop and folder **C:\Program Files\Euronovate\ENSignPenWorkspace**

4

Start the program
ENSignPenWorkspace.exe

5

Set up your desired application (see examples) and drag the window on your PC/Laptop screen sides. The window will be automatically displayed on your **ENSIGN11 edu** screen.

To adapt the window to the screen, you can both use fingers and the equipped pen. Now you can start!

Applications and compatibility

ENSIGN11 edu also works as a virtual whiteboard, it enables you to share multimedia contents in real-time. You can do this with the most used applications like:

*available in Google Suite

Microsoft Whiteboard

Microsoft PowerPoint
